

# Ankle

## RA

### Right ankle joint

#### Anterior longitudinal scan

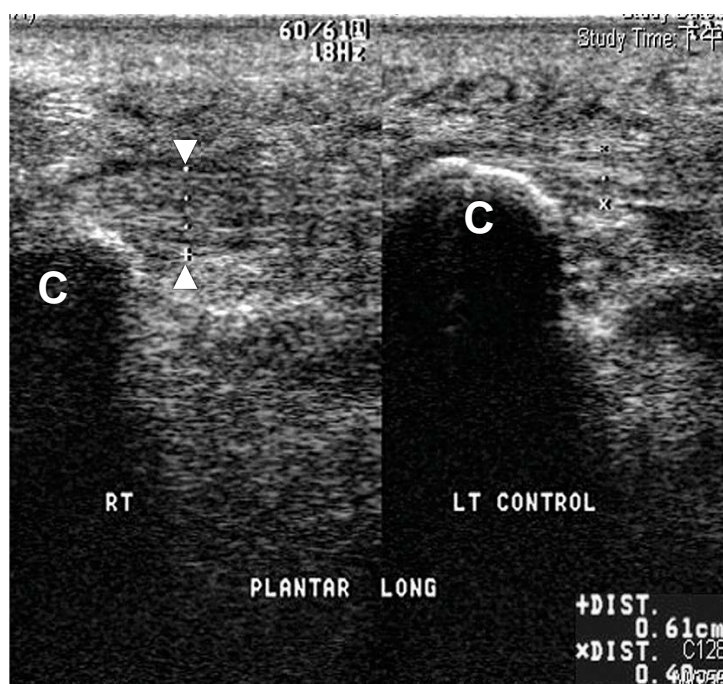

Proliferative synovitis.  
Hypoechoic fluid surrounds extensor digitorum longus tendon. Increase vascularity and synovium proliferation.  
edl = extensor digitorum longus

TR = tarsal bone

V = increased vascularity

**Lin, Liang-Hung**

Grey scale US using a Logiq 5 (General Electrics) with a linear probe (12L)

## SpA

### Ankylosing Spondylitis with Plantar Fasciitis

#### Longitudinal scan of plantar facial

Thickening of plantar fascia (between arrowhead)

C = calcaneus

RT = abnormal

LT = normal

**Tsai, Wen-Pin**
